

Symposium on Accessibility in International Civil Aviation

□Further to the ICAO Council designating 2024 as the [Year of Facilitation \(FAL2024\)](#), ICAO, jointly with Airports Council International (ACI) and the International Air Transport Association (IATA), will conduct the Symposium on Accessibility in International Civil Aviation, to be held at ICAO Headquarters in Montréal, Canada, from 2 to 3 December 2024.

Inclusive and universally accessible Air Transport for Persons with Disabilities and Reduced Mobility

Under the proposed theme “Inclusive and universally accessible Air Transport for Persons with Disabilities and Reduced Mobility” the Symposium seeks to address facilitation of the transport by air of persons with disabilities and reduced mobilities and improve their air travel experience, aligning with ICAO Assembly Resolution A41-15 *Accessibility in International Civil Aviation*.

The Symposium aims to address the challenges and efforts of States, industry and other stakeholders and to enhance international collaboration for effective solutions on accessibility. It will be of benefit to several agencies and aviation stakeholders such as border control authorities, airport and aircraft operators, advocacy groups and other interested parties from all Member States.

An Exhibition will compliment the Symposium, displaying a range of practicable accessibility solutions and services.

Please refer to Registration Fee Schedule for the focal point emails for States or for additional categories:

Global Implementation Support Symposium

Join us at the International Civil Aviation Organization (ICAO)'s 4th Global Implementation Support Symposium (GISS) to be held in Abu Dhabi, United Arab Emirates, from 10 to 12 February 2025.

AI in the Sky: A Unified Approach with ICAO

□The AI in the SKY is a premier event convened by the Turkish Civil Aviation Authority and supported by the International Civil Aviation Organization. This exciting gathering is designed to explore the transformative impact of artificial intelligence and big data in the aviation sector, alongside new technological products, applications for passengers and employees, passenger and cargo flight solutions, information and cybersecurity, and software development.

In Collaboration with

This Event will bring together government officials, industry leaders, technology innovators, and regulatory bodies to discuss the integration of AI technologies that enhance airspace efficiency, improve safety, and ensure sustainable growth across global aviation networks. Emphasizing ICAO's role in developing a unified regulatory framework, the event will facilitate the safe and efficient adoption of AI technologies worldwide.

Through keynote speeches, panel discussions, interactive workshops, exhibitions, and networking opportunities, participants will gain invaluable insights into advancing AI-driven solutions, navigating complex regulatory landscapes, and fostering international collaboration to fully leverage data-driven innovation in aviation.

Stay at the main hotel, Sueno Hotels Deluxe Belek, and pay a registration fee of US\$250 instead of US\$1,000.

To take advantage of the 75% discount on registration by staying at Sueno Hotels Deluxe Belek, please follow the below instructions:

1. Book your hotel stay at <http://pay.akademikongre.com>
2. Email us at AIsky@icao.int and share your hotel booking confirmation.

3. A Voucher code will be provided to you by email within 24 business hours.
 4. Begin registering for this event by clicking the below "Register for this Event" button.
 5. Use the voucher code when registering to receive the 75% discount.

Compliance, Safety, and Documentation in Aviation

Aviation Compliance, Safety, and Documentation: Unveiling Industry Advancements

Embark on a journey of professional development at our upcoming conference, dedicated to exploring the latest developments in aviation compliance standards, safety issues, and documentation practices. Esteemed expert speakers, well-versed in the intricacies of the aviation industry, will contribute their knowledge and expertise, providing valuable insights to enhance your understanding of this critical area.

Key Focus Areas:

- **Evolution of Compliance Standards:** Explore the latest updates and changes in aviation compliance standards, ensuring a comprehensive understanding of regulatory requirements.
- **Safety Protocols and Best Practices:** Delve into safety

issues, examining protocols and best practices that are paramount in maintaining a secure aviation environment.

- **Documentation Strategies and Innovations:** Uncover the latest trends and innovations in aviation documentation, streamlining processes and ensuring accuracy in compliance records.

An Interactive Conference Experience: Participate in an interactive event and debate, where industry professionals converge to share insights, engage in discussions, and collectively contribute to the advancement of aviation compliance, safety, and documentation practices.

Secure Your Place – Elevate Your Expertise: Don't miss this unique opportunity to elevate your knowledge in aviation compliance, safety, and documentation. Secure your place today and be part of a conference that promises professional enrichment and industry advancement.

“Luchtvaart in Transitie” event

The transition to sustainable aviation is both an urgent necessity and a tremendous economic opportunity. Luchtvaart in Transitie is dedicated to pioneering disruptive technologies and building the knowledge base and industrial links that will enable the global sector to achieve climate neutrality.

Sign up for our annual event with fellow professionals passionate about creating the air transport system of the future. Gain fresh insights into the latest developments by listening to engaging panel discussions and inspiring

speakers.

By filling in the form below, you express your interest to participate in this event. We would like to welcome everyone, but please note that capacity is limited. In early September, we will confirm the list of participants.

ICAO Security Week 2024

The International Civil Aviation Organization (ICAO) will convene the next edition of the **ICAO Security Week 2024**, hosted by the Civil Aviation Authority of the Sultanate of Oman, from 9 to 12 December 2024. We are looking forward to seeing you in Oman.

LTAG Stocktaking Event on Aviation CO₂ Emissions Reductions

We invite you to join us at the ICAO Long-term Global Aspirational Goal (LTAG) Stocktaking Event on Aviation CO₂ Emissions Reductions!

Taking place 7 – 10 October 2024 at ICAO Headquarters in Montréal, Canada, this gathering of high-level representatives and experts will feature several sessions where we monitor the progress towards the collective LTAG for international aviation in achieving net-zero carbon emissions by 2050. The

event will also report on and discuss the status of sustainable aviation fuels, lower-carbon aviation fuels, and other aviation cleaner energies.

Speakers at the event will address all aviation in-sector CO₂ emission reduction measures and innovations, including technologies, operations, fuels, cleaner energies, and financing, showcasing the latest information from States, industry, and other stakeholders.

By attending this event, you will have the opportunity to learn from, network with, and exchange insights with various aviation stakeholders committed to facilitating the development of new ideas and accelerate the implementation of solutions that will further reduce aviation emissions
