

# Uniting Aviation – ICAO News and Features

## Charting your plans: ICAO's event lineup for 2024

Every year at ICAO we offer a wide spectrum of global [events](#) that are developed to address critical areas of civil aviation. Some of the events planned for 2024 cover air navigation, aviation safety, security and innovation, passenger facilitation, environmental sustainability, economic development, drones and implementation support. Each of the events will provide a strategic platform for aviation professionals to engage in meaningful discussions, share expertise, and collaborate on solutions that shape the future of the industry. Whether you are focused on enhancing safety, exploring innovative advancements, or championing environmental responsibility, ICAO's comprehensive event lineup provides the insights and opportunities you need to excel in the dynamic world of aviation.

[ICAO's event calendar for 2024](#)

. As the year unfolds this list will be continuously updated. Many of the event websites are currently under construction, make sure to visit the calendar to get links for the events when the information is made available.

These events provide unique opportunities to showcase your products and services to a global audience, including representatives from ICAO's 193 Member States. Explore how innovative technologies, equipment, and processes can play a crucial role in addressing current and future aviation safety and security challenges.

[For more information on these opportunities, click here.](#)
